The Acrobat Software Development Kit

- The Acrobat 8 SDK is a set of tools that help you develop software that interacts with Acrobat 8 technology
- The SDK is really 3 separate SDKs that make up the Acrobat SDK
 - Developing **WITH** Acrobat - JavaScript
 - Developing **FOR** Acrobat - Plugins
 - Developing **AROUND** Acrobat - InterApplication Communication (IAC) Support

Three different ways to integrate with Acrobat

The diagram illustrates three integration methods. At the top is a red box labeled 'JavaScript' with 'Acrobat or Adobe Reader' written below it. Below this are two green boxes labeled 'Plug-In'. At the bottom are two blue boxes labeled 'External Application', with arrows pointing from them up to the 'Plug-In' boxes.

Adobe Customization Wizard 8

Uses industry-standard installer technology

- Provides a graphical user interface to Acrobat's Windows Installer
- Results in a Microsoft Transform File (MST) or a repackaged application

Key benefits include:

- Save time in the application roll-out process, by eliminating scripts/registry edits.
- Control your disk image, resulting in lower support costs and a simplified user experience.
- Standardize the user experience and user PDF output, resulting in consistent content.
